F1100 Sno Pro 50th Anniversary Edition

Light, built to swallow the bumps and pumping out 120-class horsepower via the ultra-clean 1100 four-stroke engine, the all-new F1100 Sno Pro has set a new standard for high-performance middleweights.

Built on the all-new ProCross chassis, the ultra-light, ultra-rigid foundation has uncompromised handling and control. Up front, the new ARS front suspension attacks the bumps with its extra-tall spindles, wide A-arm spacing and one-piece ski spindles. At the back, the FasTrack Slide-Action rear suspension soaks up anything the trail has to offer, leaving you in perfect comfort and control.

For hard pounding, the F1100 Sno Pro features aggressively-calibrated, lightweight Fox Float 2 shocks up front, an extra-low windshield, electric heated seats, an aggressive 1.25-in. Ripsaw track and a retro graphics package that mimicks the sleek black Sno Pro race sleds of the late 1970's.
